## Seasons of life

*Green foliage adorns nature  
With a vivid blanket of joy,  
The life begins to express dedication;  
As the bright sun moves above  
Sweat of persistence rolls down,  
The 'Estival Solstice' sets in.*

*Hurdles set up,  
As puddles of muddy feelings fill in  
Still there is solace in those first raindrops;  
Pacification of the dehydrated mind,  
As the petrichor descends  
The peacock's cry welcomes 'Monsoon'.*

*Rustling of those maple leaves  
Filled with love and affection,  
Red tinted with brown, a smell of loneliness;  
As they fall on the grass of morality  
From those branches of the tree of time,  
Showcasing the 'Fall'.*

*Pumpkins filled the essence of pranks,  
End this season as the twigs dry off  
Still green in the pine forest deep within the heart;  
White snowflakes on my palm, gelidness settles  
As the lake of tears freezes slowly;  
It's the advent of the 'Snow'.*

*Far away on the lofty mountains of realism,  
A golden ray of faith  
Melting away the fiords of grief;  
Each bloom spreading the aroma of maturity,  
The petals of cherry blossoms floating  
Enriching the air with 'Spring'.*

*The enrichment of the soul  
Words of cheer fill the entire heart;  
Nature celebrating each season,  
Beckoning to take a step forward  
Delving into the motivation of the journey;  
Holding those soft hands of the inmost self.*
